

Asuman Aydın

Computer Engineering/Science Student

To whom it may concern,

I am writing this cover letter to express my interest on the internship program as computer science/engineering student. I learned about your company through Bilkent Kariyer Merkezi and decided to apply after analyzing the work area.

I am currently majoring in Computer Engineering and Science in Bilkent University. I am in a senior year which determined graduate date is January 2020 if there is no any obstacles. While I am having a background on Computer Science and the implementation of the science we have learned, my focus is on the development and the production side of the computer science such as system designs over a human-related applications of the fields. I believe that your company provides a products related to my emphasis. Hence, to enhance my skills on development side of the field and also contribute to your company, this internship is a great opportunity.

After my graduation, I want to work for a big companies like yours to actually step up for my career and improve my skills as an computer engineer. Also, I feel the importance of the workplace ethics and qualities is the key point for the success of a company. Hence, this internship will also contribute the social side of the career steps I will be taking for the future because I believe that a company should have a successful workplace rules and system which increase the success of the company.

I am looking forward to hear from you. Thank you for your consideration.

Sincerely,
Asuman Aydın.
